FOR IMMEDIATE RELEASE

Kneeland Park Pump Station Project – Paving Notification & Traffic Impact

Shelton, WA— *Weather dependent*, Rodarte Construction, Inc. will be paving the Kneeland Park adjoining areas March 1, 2 and 3, 2010, from 7:00 AM through 4:30 PM. This activity will result in the closure of Park Street and Turner Avenue, and may cause significant delays on First Street, to facilitate this phase of construction. This will limit access to the park shelter during preparations prior to paving, and after paving to finish final grading.

As always, *emergency vehicles and local access* will have access to Park Street, but from 7th Street only. School buses will be accommodated by on-site flaggers. All other traffic, except for local access, will be directed to detour by signs and flaggers.

The City Commission and Staff – appreciate the cooperation and patience of residents and wish to thank all those affected by the traffic impacts during this critical phase of construction.

For further information please contact the City of Shelton Project Inspector Sam Willson at 432-5176 or 470-6271.
